

MORE THAN JUST NUMBERS, IT'S ABOUT PEOPLE.

MG RELEASES ITS FIRST SUSTAINABILITY REPORT.

We have published our first Sustainability Report.

a document that goes beyond numbers to tell the real story of how, every day, we strive to do business responsibly: for people, for the environment, and for the community we are part of.

In 2024, we achieved significant results that we are proud to share:

This report is not a milestone, but a starting point:

a commitment that grows together with company, our people, and the community that stands by us every day.
